---

## Summary

In my current role as an Assistant Professor in Pharmacometrics, I leverage knowledge and experience in pharmacometric and statistical modeling to:

- Investigate, identify and quantify the source of variability (i.e., genetics, environment, etc) in dose-exposure-response relationship of therapeutics.
- Develop innovative biomarkers (e.g., microbiome communities, disease status, etc) and optimize drug properties (e.g., dosing regimens, administration routes, etc) for the improved therapeutic effectiveness in special populations (e.g., pediatrics, patients with obesity, etc).
- Inform future study design to evaluate drug safety and efficacy for the efficient drug development.

My research training and experience is in the intersection of pharmacometrics and biostatistics. My expertise lies in the implementations of quantitative pharmacological modeling approach (e.g., pharmacokinetic/pharmacodynamic (PK/PD), disease progression, exposure-response (ER), etc) to inform precise dosing of medicines (i.e., Model-Informed Precision Dosing, MIPD) and to facilitate efficient drug development (i.e., Model-Informed Drug Development, MIDD). Additionally, my research interest involves evaluating and developing innovative methodologies for more efficient pharmacometric analyses. With my graduate training background spanning from pharmacology to quantitative sciences, my journey reflects a deep commitment to understanding and optimizing drug therapy through sophisticated modeling techniques. The successful implementation of my research will move us one step forward towards the realization of precision medicine.

## Experience

**Assistant Professor** - Department of Experimental and Clinical Pharmacology, University of Minnesota College of Pharmacy, Twin Cities, MN

Feb. 2024 - Present

- 
- 40% Conduct pharmacometric (PMx) research
  - 40% Teaching and advising graduate students
  - 20% Professional services (e.g., develop and maintain PMx computational facility)

**Research Scientist I** - Metrum Research Group, Tariffville, CT

Jul. 2022 - Feb. 2024

- 
- 80% scientific consultation with clients in pharmaceutical industry
  - 20% involved in internal research and training

**Research Associate II** - Metrum Research Group, Tariffville, CT

Jan. 2022 - Jul. 2022

- 
- 50% scientific consultation with clients in pharmaceutical industry
  - 50% involved in internal research and training

## Education

<b>Ph.D. in Experimental and Clinical Pharmacology (minor in Biostatistics)</b> - University of Minnesota, Twin Cities, MN	Aug. 2017 - Dec. 2021
- Thesis: Understanding the Impact of Pharmacogenetic Differences in Drug-drug Interactions (DDIs): a Model-based Approach to Predict Differences in Drug Exposure centrality.	
<b>M.S. in Pharmacology</b> - University of Michigan, Ann Arbor, MI	Sep. 2015 - May. 2017
- Thesis: Preparation and characterization of the complexes of cytochrome P450 2B4 and its redox partners in Amphipol A8-35.	
<b>B.S. in Biological Sciences</b> - Soochow University, Suzhou, China	Sep. 2010 - Jun. 2014
- Undergraduate researcher in toxicology.	

## Internships

<b>Pharmacometric Intern</b> - Novartis, Boston, MA	Jun. 2021 - Aug. 2021
- Translational PK-PD modeling of CAR-T cell therapies.	
<b>Biomolecule PK-PD Intern</b> - Eli-Lilly and Company, Indianapolis, IN	Jun. 2020 - Aug. 2020
- Retrospective analysis on CL and V of mAbs in various animals species to identify allometric scaling exponents.	

## Workshops

<b>Write Winning NIH Grant Proposals</b> - Clinical and Translational Science Institute at the University of Minnesota, Twin Cities, MN	2025
<b>(R)TTE analysis: MIDD applications, concept, methodology and NONMEM hands-on, Pharmetheus</b> - Pharmetheus at American Conference of Pharmacometrics (ACOP) 15, Phoenix, AZ	2024
<b>Efficient reproducible Bayesian population PK modeling with NONMEM and Stan/Torsten</b> - Metrum Research Group at American Conference of Pharmacometrics (ACOP) 15, Phoenix, AZ	2024
<b>Pharmacokinetics and pharmacodynamics of protein therapeutics-principles and pharmacometric approaches</b> - The College of Pharmacy, University of Tennessee Health Science Center (UTHSC), Virtual	2024
<b>An introduction to probabilistic decisions support in drug development</b> - Pharmetheus at American Conference of Pharmacometrics (ACOP) 14, National Harbor, MD	2023
<b>Intermediate and Advanced NONMEM and PDx-Pop Workshop</b> - NONMEM and PDx-Pop development team, ICON Clinical Research LLC, Virtual	2020
<b>Introductory NONMEM and PDx-Pop Workshop</b> - NONMEM and PDx-Pop development team, ICON Clinical Research LLC, Virtual	2020
<b>Bayesian Statistics: From Concept to Data Analysis</b> - University of California, Santa Cruz, Coursera, Online course	2020
<b>Machine Learning</b> - Stanford University, Coursera, Online course	2019
<b>Introduction to bayesian pharmacometric data analysis with NONMEM</b> - Metrum Research Group at American Conference of Pharmacometrics (ACOP) 10, Orlando, FL	2019

<b>Pharmacometric statistics workshop</b> - Taca training, Dublin, Ireland	2019
<b>Simcyp UMN 2-day workshop</b> - College of Pharmacy at University of Minnesota, Minneapolis, MN	2018
<b>Advanced R Workshop in mrgsolve</b> - College of Pharmacy at University of Minnesota, Minneapolis, MN	2017

## Tutorials

<b>Bayesian Thinking in Clinical Research</b> - UCSF-Stanford CERSI, Virtual	2025
<b>Model-Based Meta-Analysis: towards more precisely predicted clinical scenarios</b> - Tutorial at American Conference of Pharmacometrics (ACOP) 15, Phoenix, AZ	2024
<b>Pharmacometrics Spring School: Modeling using MonolixSuite</b> - Lixoft (Simulation-sPlus), Virtual	2021
<b>An open-source Pharmacometrician's workflow in R: from exploration (xGx) to model building (nlmixr) and diagnostics (ggPMX)</b> - American Conference of Pharmacometrics (ACOP) 11 Trainee Tutorial, Virtual	2020
<b>Pumas DDMoRe Bootcamp</b> - Pumas development team, Pumas-AI Inc, Virtual	2020
<b>Quantitative Systems Pharmacology in Translational Drug Development</b> - American Conference of Pharmacometrics (ACOP) 10 Trainee Tutorial, Orlando, FL	2019
<b>Minnesota Pharmacometrics Summer Workshop (MPSW)</b> - College of Pharmacy at University of Minnesota, Minneapolis, MN	2019

## Skills

- Pharmacometric skills
  - Nonlinear mixed-effect modeling using NONMEM (GUI: bbr-bbi, FinchStudio, Pirana and PDx-Pop), Monolix, Phoenix NLME, STAN and SAAM 2.
  - Concepts and implemetations of pharmacometric simulations: deterministic simulations, stochastic simulations, and simulations with parameter uncertainty.
  - Proficient in pharmacometric toolbox, including MetrumRG expo and PsN.
  - Concepts and implementations of pharmacometric modeling using various algorithms (e.g., maximum likelihood estimations, EM-based algorithm and Bayesian approach).
  - Physiological-based PK (PBPK) modeling concepts and skills with Simcyp and mrgsolve.
  - PK non-compartmental analysis (NCA).
- Statistical and programming skills
  - Data wrangling, function writing, data set management, data visualization and statistical analysis and modeling using R (baseR, tidyverse, data.table, etc).
  - R package version control (renv and pkgr) and R package development.
  - Familiarize with IDE, such as Rstudio and VScode.
  - Proficient in using version control tools Github and Subversion.
  - Experience working with high-performance cluster (HPC) using command line tools and SLURM for job submission and scheduling.
  - Familiarize with Python and Julia.
  - Biological data analysis using software such as *GraphPad Prism* and *Sigmaplot*.
- Scientific communication skills
  - Scientific writing and presentation using Latex, Quarto, Rmarkdown and MS office.
  - Experience working as a scientific consultant in pharmaceutical industry.

## Honors and Awards

- 2021 Award Winner, Trainee Communication Challenge, American Conference of Pharmacometrics (ACoP)
- Doctoral Dissertation Fellowship, University of Minnesota
- Honorable Mention, Rho Chi Research Day, University of Minnesota College of Pharmacy
- Fellowship, Experimental & Clinical Pharmacology Department, University of Minnesota College of Pharmacy
- Recruitment Fellowship, Experimental & Clinical Pharmacology Department, University of Minnesota
- Outstanding Graduate, Soochow University, Medical College, Suzhou, China
- Technology Innovation Scholarship, Soochow University, Suzhou, China
- College Merited Student Scholarship, Soochow University, Suzhou, China
- 3rd place, Undergraduate Science & Technology Contests, Jiangsu Province, China

## Professional Services

- Editorial
  - Editorial Board Member, CPT: Pharmacometrics and System Pharmacology (2025 June-present)
  - 2025 ASPET Editorial Fellowship for Journal Drug Metabolism and Disposition (DMD)
- Journal reviewer
  - ACS Omega
  - Advances in Pharmacological and Pharmaceutical Sciences
  - Antibiotics
  - Biomedicine and Pharmacotherapy
  - Clinical and Experimental Pharmacology and Physiology
  - Clinical Pharmacology and Therapeutics
  - CPT: Pharmacometrics and System Pharmacology
  - Current Issues in Molecular Biology
  - Drug Metabolism and Disposition
  - European Journal of Drug Metabolism and Pharmacokinetics
  - International Journal of Molecular Sciences
  - Journal of Clinical Pharmacology
  - Journal of Pharmacology and Experimental Therapeutics
  - Journal of Pharmacokinetics and Pharmacodynamics
  - Mathematics
  - Polymers
  - Toxics
- Abstract reviewer
  - American Conference of Pharmacometrics (ACoP) 14
  - American Society of Clinical Pharmacology and Therapeutics (ASCPT) 2024 Annual Meeting
- Proposal reviewer
  - American Society of Clinical Pharmacology and Therapeutics (ASCPT) 2024 Annual Meeting
- Fellowship reviewer

– Clinical and Translational Science Institute (CTSI) Pathways to Research Program (PReP) 2025

▪ Professional societies

- Member of International Society of Pharmacometrics (ISoP) award committee (Jan. 2025-present)
- Member of workshop working group, American Conference of Pharmacometrics (ACoP) 2025 (Dec. 2024)
- Trainee lunch mentor, American Conference of Pharmacometrics (ACoP) 15 (Nov. 2024)
- Member of International Society of Pharmacometrics (ISoP) (Sept. 2019 - present)
- Member of American Society of Clinical Pharmacology and Therapeutics (ASCPT) (Sept. 2020 - present)
- Member of American College of Clinical Pharmacology (ACCP) (Sept. 2021 - present)
- Member of American College of Clinical Pharmacology (ACCP) Early-stage Professionals (ESP) Committee (Sept. 2024 - present).
- Member of International Society of Pharmacometrics (ISoP) student committee communication group (Aug. 2019 - Dec. 2021).

## Teaching

▪ Course director

- ECP8506 Clinical Trial Simulations (2024 - present) University of Minnesota

▪ Lecture contributor

- ECP8440 Modeling Biologics (2020) University of Minnesota: Implementation of target-mediated drug disposition (TMDD) model

▪ Teaching assistantship

- PHAR6786 Acute Patient Care Pharmacotherapy (2019-2020) University of Minnesota
- PHAR6732 Medicinal Chemistry and Pharmacology of Cardiovascular Agents (2019) University of Minnesota
- PHAR6756 Kidney, Fluid and Electrocytes (2017-2018) University of Minnesota
- PHAR7401 and PHAR7433 Advanced Pharmacy Practice Experience (2017-2018) University of Minnesota

## Grant Support

**Evaluate and develop methodologies to incorporate high-dimensional covariates in pharmacometric analysis** - Office of Discovery and Translation (ODAT), Clinical and Translational Science Institute (CTSI), University of Minnesota

2024-2025

- Role: PI

- Amount: \$ 50,000

## Mentoring Activities

- Graduate mentorship
  - Diqin Yan, M.S., Graduate student in Experimental and Clinical Pharmacology Program, University of Minnesota (2024-present).
- Fellowship mentorship
  - Moataz Mohamed, M.S., Graduate trainee in Translational Research Development Program (TRDP), Clinical and Translational Science Institute (CTSI), University of Minnesota (2024-present).
